

CLEANING & MAINTENANCE of escalator handrails

 **ORAPI**®

**THOMSEN'S
HANDRAIL
CLEANING
SYSTEMS™**

UNIVERSAL HANDRAIL CLEANING SYSTEM

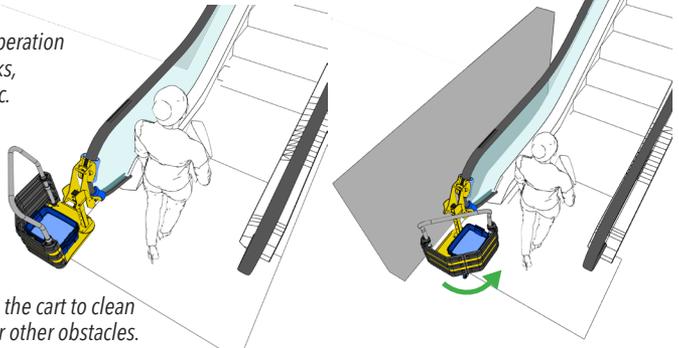

Rotates to accommodate all escalator handrails, including those next to walls or other obstacles. Provides space to carry Dolly System and supplies for convenience and efficiency.

INCLUDES:

- Universal Handrail Cleaning System
- 1 5L, 1.3gal Pad Soaking Tray w/ lid and anti-skid pads
- 2 Foam Pad Holders
- 24 Microfiber Pads

Ref.TH0001

The Handrail Cleaning Systems work without interrupting the operation of escalators or moving sidewalks, minimizing impact on foot traffic.

The unique swivel mount allows the cart to clean handrails directly next to walls or other obstacles.

DOLLY HANDRAIL CLEANING SYSTEM

Highly mobile, compact dolly configuration can stand alone, or be combined with other units to cost effectively customize your handrail cleaning capabilities. *For use on unobstructed handrails only.*

INCLUDES:

- Pad-Holder Frame (Assembled)
- High-Impact Dolly Base
- 2 Pad Holders
- 1 5L, 1.3gal Pad Soaking Tray w/ lid and anti-skid pad
- 24 Microfiber Pads

Ref.TH0013

DUAL HANDRAIL CLEANING SYSTEM

Our complete Dual System combines the Universal and Dolly Systems for maximum efficiency and versatility. Universal and Basic Units nest together for compact, convenient transport and storage.

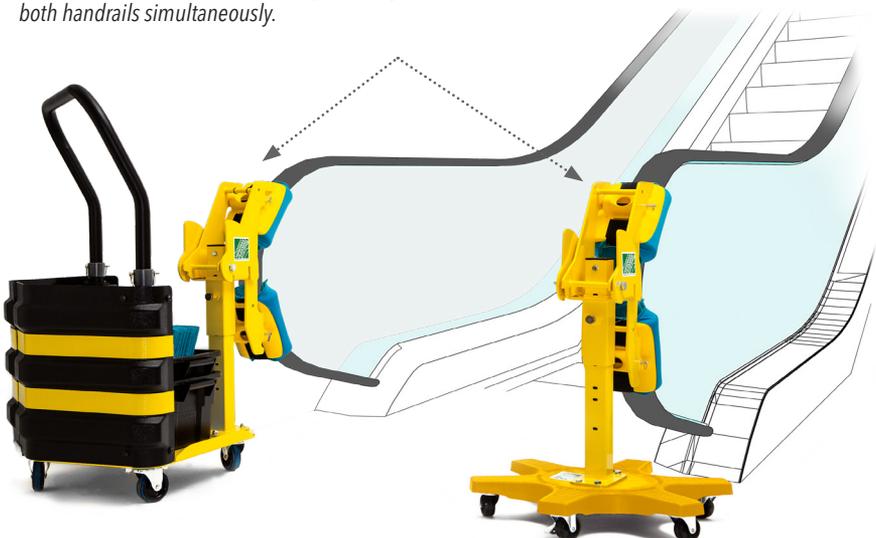

INCLUDES:

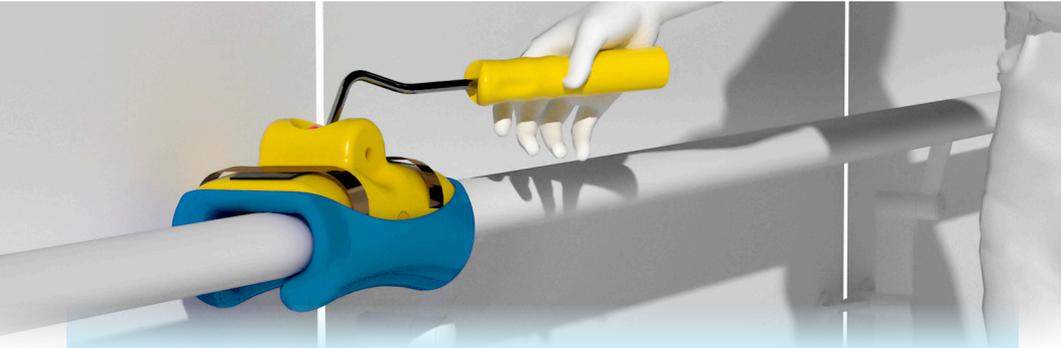

- Universal Handrail Cleaning System
- Dolly Handrail Cleaning System
- 4 Foam Pad Holders
- 2 5L, 1.3gal Pad Soaking Trays w/ lids and anti-skid pads
- 48 Microfiber Pads

Ref.TH0007

Dual System saves time and labor by cleaning both handrails simultaneously.

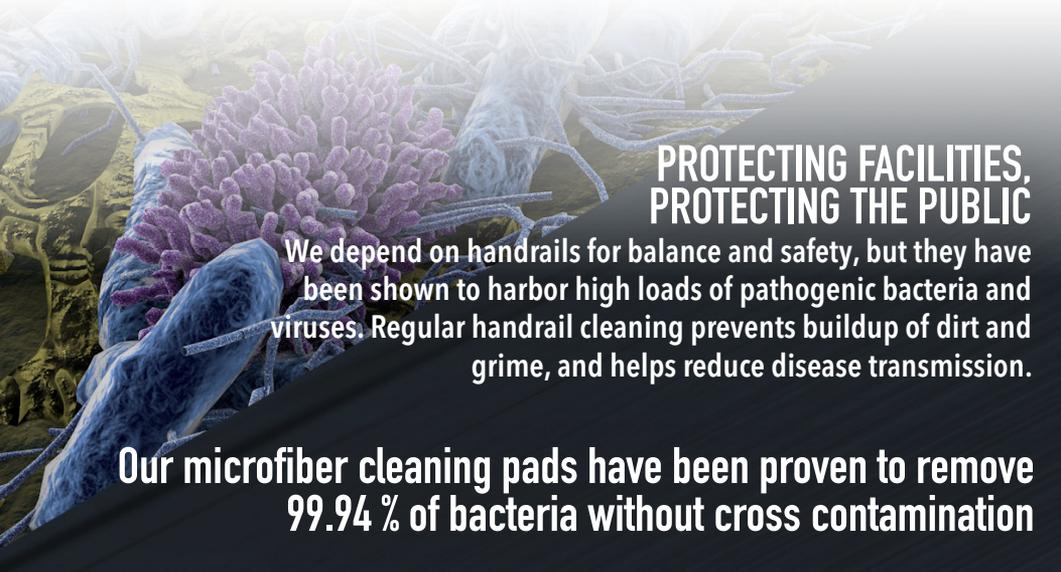

HAND HELD CLEANING SYSTEM

Utilizes the same supplies and technology as our other products for easy, efficient cleaning of stationary handrails.

INCLUDES:

- Ergonomic Ball-Joint Handle
- Foam Pad Holder w/ Metal Spring Clamps
- 12 Pack of Microfiber Cleaning Pads

Ref.TH0037

PROTECTING FACILITIES, PROTECTING THE PUBLIC

We depend on handrails for balance and safety, but they have been shown to harbor high loads of pathogenic bacteria and viruses. Regular handrail cleaning prevents buildup of dirt and grime, and helps reduce disease transmission.

Our microfiber cleaning pads have been proven to remove 99.94 % of bacteria without cross contamination

ACCESSORIES

CLEANING PAD 12 PACK

12 high-quality, proprietary microfiber handrail cleaning pads for use on Cleaning System Foam Pad Holders.

Ref.TH0041

PAD SOAKING TRAYS

Conveniently hold cleaning solution, pre-moistened microfiber pads, soiled pads, etc. Trays fit on both Universal and Dolly Systems. Anti-skid pads keep containers securely in place. Lids are labeled for workplace safety compliance.

INCLUDES:

- 2 5L, 1.3gal Pad Soaking Trays w/ lids and anti-skid pads.

Ref.TH0046

PAD HOLDER FRAME

Ref.TH0002

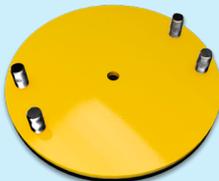

FOAM PAD HOLDER

Ref.TH0033

PIVOT DISK

Ref.TH0005

THE ONE-TWO PUNCH

Our proprietary cleaning system keeps escalator handrails sanitary, looking great, and running smoothly, while reducing costly maintenance and downtime caused by debris buildup.

1 HEAVY DUTY CLEANER

Our maximum-strength formula, engineered for deep cleaning of untreated or badly soiled handrails.

CLEANER CONDITIONER 2

For regular maintenance, our dual-purpose solution cleans handrails and conditions the rubber.

HEAVY DUTY CLEANER

Deep cleans rubber and vinyl escalator handrails that are badly soiled, or have not had regular cleaning.

12 x 1QT 946ml Bottles

Ref.TH0045

CLEANER CONDITIONER

For ongoing maintenance of escalator and stationary handrails. Cleans, conditions, and maintains elasticity of rubber, vinyl and plastic surfaces.

12 x 1QT 946ml Bottles

Ref.TH0044

EASY TO USE

- With very little training, anyone can expertly clean and condition the dirtiest escalator handrails.
- No cords to plug in or batteries to charge.
- Rugged construction.
- Easy to move and store.

SAVES TIME & LABOR

Hands-off operation means staff can get more done in less time.

MINIMAL IMPACT ON OPERATIONS

Handrail Cleaning Systems can go to work without shutting down escalators, minimizing impact on facilities and on the public.

PROTECT EQUIPMENT INVESTMENT

- Expensive handrails can be damaged by several kind of products. Our solutions are specially formulated to safely clean and condition rubber and vinyl handrails.
- Regular cleaning and conditioning extends handrail lifecycle, reduces mechanical wear and tear, and helps prevent costly shutdowns.
